

Reinventing motorcycles!

Design-
Engineering-
Tools-
Style-

Given is a strongly experienced company focused in the motorcycle **design**.

With more than 10 years in the motorcycle **design**, **engineering** and **style** we can develop and follow any kind of project, starting from the basic concept via hand sketch until the complete development of a pre-series production motorcycle.

We have several tools and capabilities in-home and extremely complete list of suppliers who can build for us any request.

Our aim is to move up **new styles** in design and help companies to build better products at **lower cost**.

Concept

Production

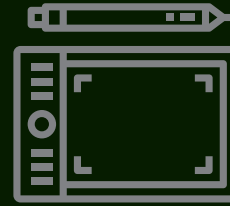

design:

Given main focus is **motorcycle design** and related services.

We hardly work by pencil, paper and computer 3D softwares, but also with welding machine and complex CNC processes.

*Advanced concept-
Prototypes-
Maquettes-
Digital Mock-up-
Brand motorcycles-*

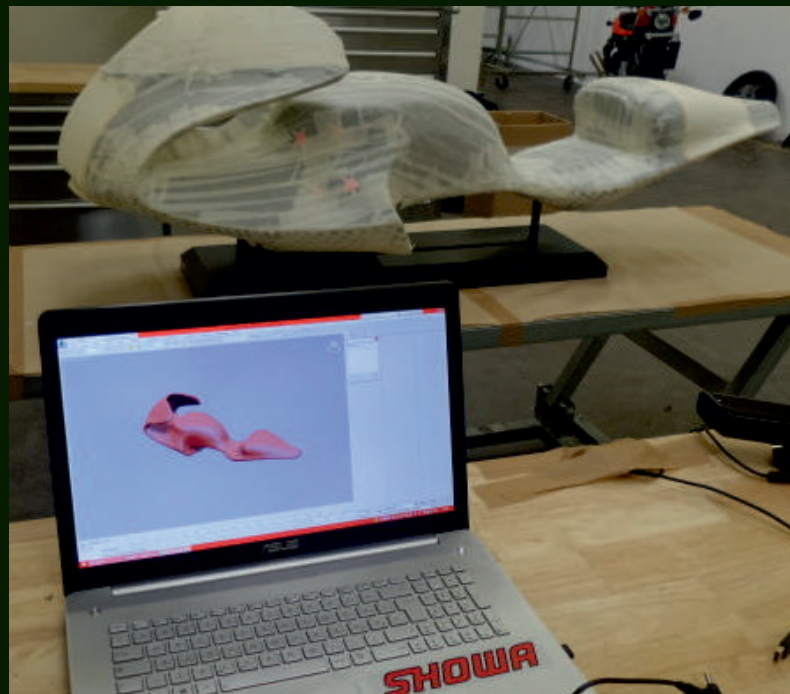

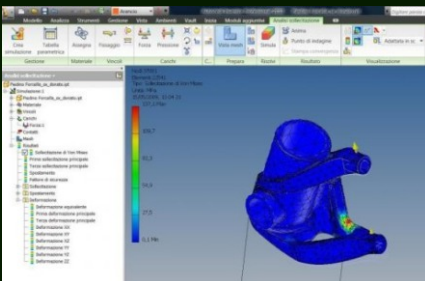

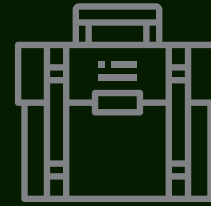

engineering:

Engineering is strongly related to design since it allows the **production process** to be effective and realistic.

This is why we are specialized to easily move our and **your ideas** from paper to reality.

Class A+B surfaces-
Fem analisys-
Abs systems-
Environmental 3D-

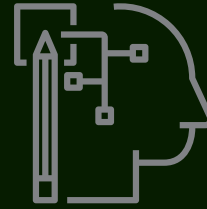

tools:

Eicma logistic-
Prototypes-
Training-

We know that our customers need **services** all around design.

They need **motorcycle details**, finish, logistic and other services to show up their products to market and to receive feedback from them.

style:

Design is nothing without style!

Style means interpreting **tendencies**, trends, and working on **finish details** allowing the final customer to feel the object as the most desirable item he wants.

Custom motorcycles-

matchless model x

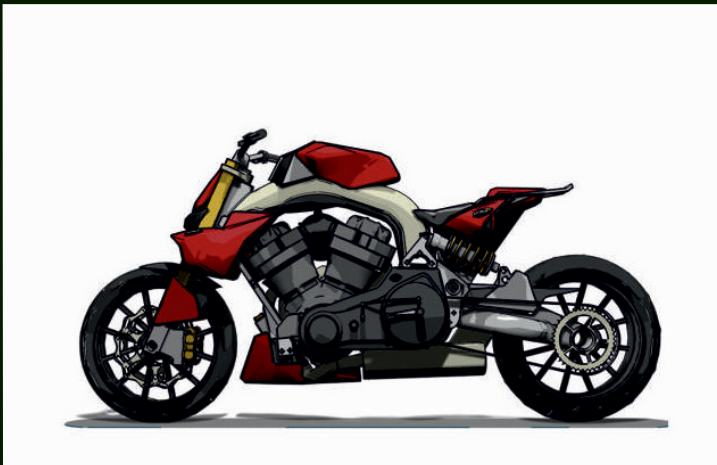

Model:	Matchless Model X Reloaded
Year of presentation:	2013
Engine type:	Twin cylinder
Displacement:	2126 c.c.
ECE Approval:	Euro 3

CR&S DUU

<i>Model:</i>	CR&S DUU
<i>Year of presentation:</i>	2009
<i>Engine type:</i>	Twin cylinder
<i>Displacement:</i>	1917 c.c.
<i>ECE Approval:</i>	Euro 3

italjet dragster

Model:	Italjet Dragster
Year of presentation:	2018
Engine type:	Single cylinder
Displacement:	198 c.c.
ECE Approval:	Euro 4

um scrambler 300

Model:	UM Scrambler 300
Year of presentation:	2017
Engine type:	Single cylinder
Displacement:	298 c.c.
ECE Approval:	Euro 4

zongshen breakout

Model:	Zongshen Breakout
Year of presentation:	2018
Engine type:	Single cylinder
Displacement:	148 c.c.
ECE Approval:	Euro 4
